

Implant Prosthetic Misadventures

Course Description

Communication is the key to a successful implant restoration. Learn about the importance of open communication between the specialist, dentist, and dental laboratory.

This program will provide attendees with a strong theoretical basis on the management of their dental implant prosthetic restorations. We will discuss in detail the long-term success and failures associated with prosthetic implant restorations.

Learning Objectives

- ◆ Understand the potential complications that could occur with various implant restorations including cementable vs. screw retained, removable overdentures, and fixed restorations
- ◆ Learn how to prevent a prosthetic screw loosening, screw fracture, or stripped screw when restoring your next implant case
- ◆ Identify clinical procedures and implant components required for predictable and successful prosthetic implant restorations
- ◆ Bring a complex case of your own and Wayne will case plan with you!

Featured Speaker

Wayne Szara is a Clinical Education Manager with ZimVie dental (formerly Zimmer Biomet). He is a 33 year CDT with over 35 years experience in the dental industry and a graduate of Triton College and Southern Illinois University with degrees in dental technology and vocational education. Wayne has broad knowledge of laboratory procedures and the skills to present new information in a clear and interesting manner. For 22 years, Wayne has presented numerous seminars for ZimVie, including hands-on implants and implant prosthetic programs throughout North America and internationally. His programs are presented to oral surgeons, periodontists, general dentists, denturists, dental technicians and even patients. Daily, Wayne helps dentists and dental technicians with their questions about restoring dental implants. A published author, Wayne's technical articles have appeared in peer-reviewed journals. He is recognized by the military as an outstanding seminar leader in their professional development program for dentists and dental technicians. In addition, he has worked for Sterngold and 3M ESPE.
